UNIX and Windows Dedicated Hosting Terms and Pricing

Package Features	Starter	Standard	Professional	Enterprise
CPU	1 Ghz P3	2.4 Ghz P4	2.8 Xeon	Dual 2.8 Xeon
RAM	256 MB	512 MB	1 GB	2 GB
Hard Disk Space	40 GB- UDMA	40 GB- UDMA	36 GB- SCSI	Three 36 GB-15K RPM SCSI
Bandwidth	1/4 Mbps	1/2 Mbps	3/4 Mbps	1.5 Mbps
Setup Cost	\$150.00	\$225.00	\$375.00	\$657.00
Price / Month	\$195.00	\$300.00	\$500.00	\$900.00

Custom Configuration

Intechnic Corporation will gladly put together a custom dedicated server package in accordance with your hosting needs. This can include custom hardware configuration and bandwidth requirements. Please contact us for a quote for your particular needs.

Bandwidth

Intechnic Corporation measures bandwidth usage as throughput calculated in Mbps (Megabits per second). For example, 1 Mbps is equivalent to a nominal of 316 GB of bandwidth per month.* Customers are only liable for the bottom 95% of the overall monthly bandwidth usage.

To increase the amount of bandwidth throughput to the dedicated server, simply contact Intechnic Corporation to upgrade your plan. Decreasing the bandwidth throughput is also possible at the cost of one month extra payment at the previous rate (prior to the downgrade). Bandwidth throughput is available in the minimum blocks of 1/4Mbps. The pricing for additional bandwidth throughput is as follows:

Total Purchased Bandwidth (Mbps)	Price per month (per Mbps)
1 – 4 Mbps	\$300 / Mbps
5 – 9 Mbps	\$250 / Mbps
10 + Mbps	\$200 / Mbps

Overage Fees

Bandwidth consumption over the purchased bandwidth throughput is subject to overage fees of two times of the regular bandwidth pricing.

Optional Backup over the Wire

Backup of up to 10 GB of data over the wire	-	\$20/Month
Additional 1 GB of data:	-	\$2/Month

Hardware Upgrades

If a customer chooses to upgrade or add any hardware to the existing server, there will be a \$125 installation charge per instance in addition to the cost of the new hardware.

Software installation

Intechnic Corporation offers a default operating system of Linux Red Hat 8.0. Upon request any other operating system can be installed. Any applicable licenses and software must be provided by the client.

Installation/Configuration fees	-	\$90/hour
10 hour pack for software installation	-	\$750

Contract Terms

There is a minimum term of three months for all of dedicated server contracts. All accounts are subject to a one-time non-refundable setup fee that can be waived upon a full one year prepayment. 10% discount is awarded if account is prepaid for two years and 25% discount is awarded for a three year prepayment. Contracts of greater than three months and less than one year are subject to the following surcharges:

One Year Contract:	-	Listed Pricing
Six Months Contract:	-	Listed Pricing + 25% surcharge
Three Months Contract:	-	Listed Pricing + 50% surcharge

PLEASE NOTE: For all Custom-built servers, there is a minimum of a one year contract.

Uptime Guarantee and Support Service

- Intechnic Corporation offers a 99.5% Service Uptime guarantee every month or your monthly fee is waived. Please refer to your agreement for the Guarantee Details.
- Intechnic Corporation offers award-winning 24/7/365 support service via online, over e-mail or telephone free of charge.

Collocation

Intechnic Corporation offers custom collocation services (including equipment purchase options). Pricing is available upon request.

Optional Miscellaneous Work

The client may request services or miscellaneous work (not covered by regular support or maintenance) performed on their server at any time at our emergency rate or can schedule work ahead of time at our regular rate.

Emergency work (not covered by support)	-	\$120/hour
Other miscellaneous prescheduled work	-	\$90/hour

* This equivalent is calculated based on the constant 1 Mbps channel utilization for the period of one month. The actual number may vary depending on the fluctuations in usage.
